

QUICK REFERENCE PLANTING GUIDE		
SUPPLIED AS	Bulbs	
LIGHT / SUN EXPOSURE	Full sun	
WHEN TO PLANT	September - December	
WHERE TO PLANT	Pots, beds, or borders	
EVERGREEN PLANTS (Y/N)	No	
ANNUAL / PERENNIAL	Perennial	
PLANT HARDINESS	Hardy	
COLOUR OF FLOWERS	Red, yellow, pink, purple, and white	
SCENTED	Yes	
PLANTING DISTANCE IN-GROUND (cm)	Aim to plant at the depth twice the height of the bulb	
MATURE PLANT HEIGHT (cm)	40cm	
MATURE PLANT WIDTH (cm)	10cm	
FLOWERING PERIOD	April - May	
TYPE OF SOIL	Moist, but well-drained soil	
KEY WILDLIFE ATTRACTED	Pollinators	
EDIBLE (Y/N)	No

PLANT CARE INSTRUCTIONS		
PRODUCT INFO	<p>QVC SKN # 744543</p> <p>Item Caption: YouGarden Tulip 'Triumph' Mixed 30 x Bulbs</p>	
THIS SELECTION CONTAINS	30 x Scented Tulip 'Triumph' Mixed bulbs with red, yellow, pink, purple and white flowers	
ON ARRIVAL	<div><div>As Supplied</div></div> <ul style="list-style-type: none">You will receive your bulbs packed in perforated polythene bags. There may be some sawdust left in the bags, which is present to keep condensation at bay.If you cannot plant straight away, keep in a cool, dark, moisture-free place and they'll keep for a few weeks with no problems.If your bulbs have been delayed in the post, do not worry, as they will survive in transit for several days.	
WHERE TO PLANT	<p><u>PLANTING IN-GROUND (BED OR BORDER)</u></p> <ul style="list-style-type: none">Plant bulbs at twice the depth of the bulb height, and approximately four times the width.These will be fine to plant even if a little green growth has started to appear.A layer of horticultural grit can be placed in the planting hole to boost drainage. <p><u>PLANTING IN CONTAINERS OR BASKETS</u></p> <ul style="list-style-type: none">Arrange a layer of bulbs at the top of the planter, with the pointed ends upwards, on at least 10cm of compost.Bulbs can be spaced closely together, at roughly the same width of a single bulb apart from one-another.Cover the bulbs in a layer of compost, then firm down gently, followed by a thick layer of gravel to deter weeds.Water the pot well to settle the compost.	
WATERING	<ul style="list-style-type: none">Those planted in the ground should not need additional watering, unless there is a prolonged period of hot and dry weather.Bulbs growing in containers can dry quickly, so water regularly through the growing season, until the foliage dies down.	
PRUNING / TRIMMING	<ul style="list-style-type: none">Remove any faded blooms after flowering. This will stop the bulbs from wasting energy by forming seeds, instead reserving it for the flowering of the following year.	
FEEDING	<ul style="list-style-type: none">Freshly planted bulbs should not need any feeding to flower in the first year. After this, they may benefit from spring feeding, just as foliage is starting to emerge.Use a general-purpose fertiliser, sprinkling evenly across the surface soil around the bulbs.Apply a high-potassium feed to those growing in containers once shoots start to appear, until foliage starts to die down at the end of the season.	
WINTER CARE INSTRUCTIONS	<ul style="list-style-type: none">This hardy variety does not require additional winter protection.However, those growing in containers can be moved to a sheltered position to avoid the compost from becoming waterlogged, as this can lead to rot.	
CONTAINER SIZE + RECOMMENDED NUMBER OF PLANTS PER CONTAINER	<ul style="list-style-type: none">Plant in a container that is at least 30cm wide and deep, with drainage holes.
